

CENTER FOR IMAGE IN SCIENCE AND ART_ UNIVERSITY OF LISBON

<http://lisboncisa.fc.ul.pt>

Criteria for the selection of images and videos:

1. Images (or videos) with historical value that are considered to have practical or symbolic relevance for the development of a discipline (for example, the Galilean moons in the case of astronomy, or the first radiography in the case of Physics and Medicine);
2. Images (or videos) used in "edge" science (for example, neuroimaging, or images that visualize the "nano" scale);
3. Images (or videos) directly produced by researchers who contribute to the "Center for Image in Science and Art_ University of Lisbon". Images produced and used in daily laboratory work and published in scientific articles.
